

Aachen Automotive Colloquium
05.-07. Oktober 2026 KURHAUS Aachen
www.aachen-colloquium.com

General Exhibition Information

The organizer has already sent you the stand confirmation, including the hall plan and exhibitor list. We have been entrusted with the overall organization of the trade exhibition.

Attached, please find:

Order forms from M+ Messebau GmbH

Deadline for returning M+ Messebau order forms:

September 15, 2026

General Information

Venue address:

KURHAUS Aachen, Monheimsallee 44, 52062 Aachen

The venue is located within a low-emission zone; for information, please visit:

www.aachen.de/umweltzone

All relevant information regarding stand construction can be found at

www.aachen-colloquium.com/marketing/exhibition

Please inform your service partner / stand builder.

Construction Heights | Stand Construction Approval

The standard construction height is 250 cm; taller stand structures are permitted only in specific areas. Open sides of the stand must remain transparent. Raised flooring must feature beveled edges on the aisle sides. All stand plans, including height specifications, must be submitted for approval by September 15th, 2026, to:

Stand Completion

All stands must be completed and stocked with the registered exhibits by

Monday, October 5, 2026, at 2:00 PM.

Handover of complete stands by M+ Messebau GmbH

Monday, October 5, 2026 – 10:00 AM to 2:00 PM

Welcome Reception | Opening of the Trade Exhibition

Monday, October 5, 2026, at 6:00 PM

Stands should be staffed for the opening.

Stand Areas

The exhibition areas are located on the ground floor. The Kurhaus is a listed historic building; therefore, special care is required during setup and dismantling. In particular, the marble floor in the inner vestibule—which is laid on a sand bed—must not be traversed by equipment exerting point loads (e.g., pallet trucks).

Flooring (Garden Courtyard): Grey tiles

Flooring (Vestibule): Stone flooring (marble and Solnhofen limestone slabs)

Flooring (Atrium, Conversation Salon, Writing Salon, and Games Salon):

Parquet (oak herringbone)

Floor load capacity: max. 500 kg/m²

Power connections: Routed via the floor from the power distribution box

Water and compressed air connections: Not available

Ceiling suspensions: Not permitted

Only pallet trucks with rubber tires are permitted inside the Kurhaus.

Adhesive tapes must be removed without leaving residue.

Nailing, drilling, and attaching stand construction materials to floors, walls, or ceilings are prohibited.

Aisles, gateways, and exits must be kept clear.

Storage of stand construction materials, empty containers, etc., is not permitted;

An attractive stand design is requested. ☐ Due to severely limited space during setup and dismantling, a lightweight stand design is advantageous.

Stand construction materials may need to be stored temporarily.

Access to KURHAUS Loading Zone

The loading zone is very limited in terms of space. Only one truck at a time can pull up to the loading ramp for unloading. Access is granted for loading and unloading purposes; waiting times at the entrance are possible.

Deliveries of stand construction materials larger than a Euro-pallet will be routed through the Great Hall and various doorways; an overview of passage heights and widths will be provided later.

A forklift for loading/unloading in the loading zone is not available.

Parking

There are no vehicle parking facilities on the premises. Passenger cars can be parked in the public Eurogress parking garage (max. entrance height 1.90 m; 24-hour rate €12 – subject to change; status: June 2026).

Setup Times

Saturday, October 3, 2026: 10:00 a.m. to 7:00 p.m.

Sunday, October 4, 2026: 8:00 a.m. to 7:00 p.m.

Monday, October 5, 2026: 8:00 a.m. to 2:00 p.m.

The delivery gate to the loading zone will close at approx. 12:00 p.m.

Aisle cleaning will begin at approx. 3:00 p.m.

No deliveries, assembly, or dismantling are permitted while the colloquium is in session.

Dismantling Times

Access for dismantling personnel is permitted only after the closing speech (approx. 5:00 p.m.) and upon express authorization by the organizer.

Packing up and leaving the stand early is discouraged.

Wednesday, October 7, 2026: approx. 5:00 PM to 10:00 PM

Until 6:00 PM, only passenger cars and service vehicles are permitted to enter the access area.

From approx. 7:00 PM, access is open to vans and trucks.

Please anticipate longer waiting times for entry.

The loading zone will close at 10:00 PM due to noise control regulations.

Dismantling inside the building is permitted until midnight.

ATTENTION: Loading zone CLOSED from 10:00 PM; NO FURTHER WORK PERMITTED IN THE OUTDOOR AREA.

Thursday, October 13, 2022: 8:00 AM to 2:00 PM

Blocking fire department access routes—including emergency access paths along the hotel—is strictly prohibited.
